

Please allow translator service to take priority over LPFM. I am writing because KLove is a valuable part of our local community by providing commercial-free Christian radio for my family that we would otherwise not have access to. If another broadcaster using LPFM were to replace our KLove translator station, we would not have access to the commercial-free Christian radio broadcasts that are so valuable, especially in the car. KLove is important to the public interest because it provides us with music that fits with our religious beliefs and provides a place where my children are not bombarded with commercials for more things they need. Please, please please, do not give LPFM priority over translators as we truly value our KLove station and want to have their broadcasts continue!!! Thank you.
